

## Offshore Wind Field Campaigner

Climate Jobs National Resource Center (CJNRC) is hiring an **Offshore Wind Field Campaigner**. The Field Campaigner will participate in strategy development and goal-setting with state climate jobs coalitions and build grassroots coalitions in support of offshore wind development as a source of renewable energy and of domestic union construction and manufacturing jobs.

### *About Climate Jobs National Resource Center*

The Climate Jobs National Resource Center (CJNRC) is a labor-led organization that works to combat climate change and reverse extreme inequality. CJNRC supports a network of union-led, state-based climate jobs coalitions in Connecticut, Illinois, Maine, New York, Rhode Island, Texas and a growing number of additional states. The coalitions we support have succeeded in winning the nation's strongest labor and equity standards for climate investments, built campaigns to harness public funds to invest in carbon-free and healthy schools, and trained union members on the science of climate change.

Offshore wind has the potential to significantly reduce carbon emissions, create thousands of good union jobs across the United States, and revitalize domestic manufacturing. The Biden Administration has established a goal of developing 30GW of offshore wind by 2030, moving quickly to issue leases for new offshore wind areas while progressive state governments advance their own ambitious offshore wind programs. The Offshore Wind Field Campaigner will coordinate and support statewide and local campaigns to build crucial support for the rapid development of offshore wind as well as increased investment in the domestic offshore wind supply chain. Working with state climate jobs coalitions, the Field Campaigner will build coalitions with ally organizations in the environmental, environmental justice and climate justice movements to build broad support for pro-worker offshore wind policies. The Field Campaigner will report to the CJNRC Director of Strategic Campaigns and Offshore Wind Campaign Director.
